Professional Experience

04/2016 – present

Syncfusion Inc, *Product Development Manager* — Chennai, India
- Managing the Server and IDP(IAM) modules for both the Business Intelligence product boldbi.com and the reporting product boldreports.com.
- Managing the Widgets(Visualization) module in boldbi.com product.
- Planning the requirements based on the customer's needs and follow Agile to get the features delivered on time.
- Managing a total of 5 scrum teams with around 35 engineers including 5 scrum masters.

04/2014 – 04/2016

Syncfusion Inc, *Technical Lead* — Chennai, India
- Handled a consulting project - responsive web application for scheduling doctor appointments.
- Started many web applications from scratch and delivered with completion.
- Throughout these 2 years, I had to manage a scrum team of 5 engineers by helping them understand the tasks and get them delivered on time.

| 04/2012 – 04/2014 | **Syncfusion Inc,** *Full Stack Web Developer* | Chennai, India |

Syncfusion Inc, *Full Stack Web Developer*   Chennai, India
Started my career as full stack web developer and worked for the Syncfusion.com website. Worked in the Downloads, Sales, Support and the Feature Tour modules. MS SQL Server is the backend and ASP.Net MVC is the frontend inluding jQuery and SCSS.

Education

2007 – 2011

Saranathan College of Engineering,
Bachelor of Engineering in Electrical and Electronics
Completed my bachelor's degree in Electrical and Electronics Engineering by performing a performance analysis of the Indirect Vector Control of an Induction Motor using non-linear loads in MATLAB-SIMULINK.

Projects

01/2019 – present

Bold ID, *IAM Application*
Bold ID is an IAM web app that manages the permissions, roles, security principal for the Bold Products - Bold BI, Bold Reports and other bold products.

04/2015 – present

Bold BI, *Business Intelligence Dashboard Application*
A multi-tenant enterprise application that gives end-to-end solution for creating, managing and sharing interactive dashboards. It provided both cloud and on-premise offerings with capabilities to embed dashboards from both solutions.
(Previously Syncfusion Dashboard Platform)

04/2015 – present

Bold Reports, *Reporting Software*
SSRS based RDL reporting solution that provides an end-to-end solution for handling reports with a multi-tenancy enterprise application. It provided both cloud and on-premise offerings with capabilities to embed dashboards from both solutions.
(Previously Syncfusion Report Platform)

04/2012 – 04/2014

Syncfusion Website
A complete website application that has the feature tour, downloads, sales and support modules for a product company.
